

My neighborhood

Adapted from > <http://englishbeginner2bello.blogspot.com/2010/04/community-places.html>

My **neighborhood** is amazing! **There are** a many stores and places of interest to visit and have fun. First of all, I live **between** a music store and an Italian restaurant. **On** my street, **there is** a newsstand, just **in front of** the movie theater. **There are** two grocery stores **near** my house, so I can buy all I need when I want to cook for my family or for myself. **There is** a park **beside** the book store where I love to go and read all day and get fresh air. When it was hot, I liked to go to the swimming pool **behind** the drugstore and eat an ice cream cone, but it is closed for now. **There is** also a bank where you can only get **in** when you are wearing a **face mask**, they (the employees) don't want to get infected, so they are very strict!

My **neighborhood** is really fun and convenient!
